Need some ideas? Here are a few options.

Canned Snowman

Take a clean, empty tin can. Paint the outside of the can white OR wrap and glue your choice of white paper, felt or yarn around the outside, covering it completely. **Apply duct tape around the inside edge to make it safe.**

Decorate with pompoms, googly eyes, markers, stickers, pipe cleaners. (You can make a triangle of orange paper for a carrot nose).

Fill snowman with fun treats, festive pencils or pens, candy canes.

Christmas Ornaments
